

# W Business Plan and Royalty

## Section 1 Basic Principles

1. W is a 100% reduction circulation method.
2. Participation starts from 1W, one person per position, and the spread royalty is 1000% (10 times) of the participation fee. If it exceeds it, you need to add more.
3. You can make direct introductions to up to two people, and if someone achieves a level in those two lines, you can add one line. Also, if there are achievers in a new line, the number can be increased one by one.
4. If there is a person who achieves the same or higher level under you, you cannot receive level achievement royalties from that person. The achiever can receive it.

## Section 2 Distribution Standards

1. Introduction fee distribution ratio: 30% in total

Participation conditions: From 1W

1) Direct superior (position above): 10%

2) Sponsor: 10%

3) Leader: 10%

2. Center fee distribution ratio: 20% in total

Participation conditions: 10W or more

1 unit: 5%

2nd generation: 4%

3rd generation: 3%

4th generation: 1%

5th generation: 1%

6~20s: 0.4%

3. Achievement fee distribution ratio: Total 40%

Additional incentive conditions: 10W or more

📌 Level 1 (1L) acquisition rate: 20%

When the total group total, excluding yourself, reaches 250W (\$25,000), you can receive 20% of the group performance as royalties from next day.

📌 Level 2 (2L) acquisition rate: 30%

When the total group total, excluding

yourself, reaches 500W (\$50,000), you can receive 30% of the group performance as royalties from next day.

📌 Level 3 (3L) acquisition rate: 35%

When the total group total, excluding yourself, reaches 700W (\$70,000), you can receive 35% of the group performance as royalties from next day.

📌 Level 4 (4L) acquisition rate: 37%

When the total group total, excluding yourself, reaches 10,000W (\$1000,000), you can receive 37% of the group performance as royalties from next day.

📌 Level 5 (5L) acquisition rate: 40%

When the total cumulative total of the group, excluding yourself, reaches 500,000W (\$50,000,000), you can receive 40% of the group performance as royalties from next day.

4. Savings: Total 9%

1) 1 year fixed interest rate of 6%, 0.016% daily by staking method + principal x 6%

2) Direct parent (position above): 1%

3) Sponsor: 1%

#### 4) Leader: 1%

However, the total accumulated amount shall be kept below half of the original capital for participation in supply activities.

#### 5. Maintenance fee: 1% total

- 1) Server and platform usage fees
- 2) Management costs of computer systems
- 3) Mobile transaction improvement fee
- 4) Other and final reserves
- 5) Costs for completing decentralized blockchain technology aimed at introducing a completely non-centralized, fully automatic mobile wallet, etc.

[important]

1. W is not a profit-seeking company or organization.
2. W values transparency and can maintain a simple yet safe system.
3. W is not overpaid.
4. W's balance of funds is permanent.

Section 3 Global supply status and plan

W's communication activities around the world are spread to the following countries, starting with Germany.

Japan

Singapore

Korea

Taiwan

Malaysia

Indonesia

Hong Kong

Dubai

vietnam

thailand

Philippines

India

Sri Lanka

Mongolia

Türkiye

Romania

Iran

Iraq

Germany

France

Republic of South Africa

Nigeria

Brazil

Chile

Columbia

Mexico

Canada

Netherlands

Poland

Finland

Sweden

Norway

Italy

Spain

Iceland

Uk

Australia

New Zealand

Sebum

Cuba

Peru

Argentina

Paraguay

Polypia  
Ghana  
Saudi Arabia  
Catarrh  
Oman  
Yemen  
Ethiopia  
Egypt  
Libya  
Algeria  
Republic of Congo  
Central africa  
Uganda  
Kenya  
Zimbabwe  
Mozambique  
Angola  
Madagascar

Lastly, it is scheduled to spread to various countries such as Russia, China, and the United States.

Section 4 Value and Use of W

New concept in finance

Worth your new money!

As a crystal of fiat currency and cryptocurrency, it aims to become a key currency and a solid payment currency that plays an important role in the real world, virtual world, and the world of space radio waves.

$1W=100USDT$

It is the cost of participating in the community, but it also becomes the purchase of eternal W issuance.

The reason for immortality that never disappears is a great ideology and a system that never overpays.

In order to advance into ourselves, the Earth, and the universe, a way of thinking based on the principles of finance or truth studies is the basis.

Section 5 Characteristics of W

- 1) When registering as a new member and leveling up, use W for the number of issued items!
- 2) You can also exchange to another Coin at any time!
- 3) Exchange to USDT is more convenient, and the W side fee is free!
- 4) It can also be used for QR payments between communities and company managers!
- 5) It also leads to the redistribution of human wealth and the development of other industries!

In the future, along with distribution activities, funds will be needed for system improvement and evolution of infrastructure such as platforms for W development and wallet withdrawals. This will continue to be carried out through voluntary donations and support contributions from community members.

## Section 6 W Start Circumstances

Starting on July 30, 2022, the test continued for approximately 6 months and confirmed the safety of the Eternal platform without any overpayment.

The countries that actually participated were Germany, Korea, Dubai, India, Mexico, Brazil, China, and Southeast Asia.

More than 30 people from Japan also participated and developed a network.

Afterwards, by March 2024, we reviewed system improvements and an efficient royalty distribution method and started anew.

## Section 7 Q&A

Q1: Will W's network system be stopped in the future?

A1: It cannot be possible. The reason is that the balance of funds is systematic and will never be broken because there are no overpayments.

W is not a private enterprise state for profit approach. Even if not all tens of thousands of people in a community participate in supply activities, no special problems arise.

1W = 100 USDT, the number of distribution activities is issued. Because it is a financial concept of the original universe, it does not violate important human customs or international laws.

Q2: When is W issued?

A2: This is a time when a fully mobile Swap wallet will be able to build a fully automated, non-centralized network based on decentralized blockchain technology.

Q3: What is W's finance?

A3: We study barter, Coin, fiat currency, cryptocurrency, Uniswap wallet, exchange, banking, finance, financial concepts of the original universe, structure of the universe, world of ideas, eternity, and infinite world.

It is also a school that develops financial markets.

Everyone in the community is one another's students, teachers, and partners. As you innocently and happily travel around the world together, you will obtain many coins you never thought possible.

The planet is evolving toward a vision of a monolingual, freely decentralized blockchain, and decentralized financial economy with translation apps over the Internet.

Through SNS, it has become possible to connect with people around the world and share information. (Facebook, TikTok, Telegram, LINE, TALK, WeChat etc)
